This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. AUDITOR'S NOTICE.

AUDITOR'S OFFICE, CITY OFFICES,
CITY OF SOUTH PORTLAND, ME.

All bills must be presented for payment on or before the first Wednesday of each month to insure payment during that month, and must specify what the article or articles were for, and for what department, and when for labor, where it was performed, with proper dates.

Items charged to different appropriations or departments must be made on separate bills.

The Auditor desires parties, whose claims against the city have been allowed, to be prompt in their calls to receive payment, and when bills have been once presented, ascertain if allowed before duplicating the amount on a subsequent bill, as is sometimes done.

PAY DAYS.

In all departments (except teachers and janitors) the Saturday following the second Wednesday in each month. For teachers and janitors, every second Friday following the opening of the school year.

IRVING T. JONES,
City Auditor.

Your Collector of Taxes would also report to you that he finds a widespread and strongly developed sentiment among a very large percentage of the tax payers against the payment of any taxes to the City. This sentiment has evidently been

fostered by a lax enforcement of collections. Under the existing conditions, this office cannot secure satisfactory results without the support of the City Government. This support was given the Collector by last year's Council, but was withdrawn by the present Board. A comparison of the annexed 1914 list of unpaid taxes with the 1915 list will show the result of the lack of support during 1915.

Respectfully submitted,

GEORGE T. SPEAR,
Collector.

The Treasurer begs leave to call your attention to the fact that the city holds tax titles to some three hundred parcels of real esate. These properties, in many instances, are sold to the city year after year, for unpaid taxes, with the result that the city is receiving no income whatever from them, but is in the position of paying on their account the State, County and Bridge District taxes. And the tax payers *who pay* are obliged to assume the taxes assessed on these properties each year, in addition to paying their own, which necessarily makes the burden very heavy. The Treasurer would urgently recommend that immediate steps be taken to the end that this unjust treatment of tax *payers* be discontinued.

Respectfully submitted,

GEORGE T. SPEAR,
Treasurer.

REPORT OF CITY ELECTRICIAN.

To the Honorable Mayor and Board of Aldermen —

Gentlemen: — I herewith submit my report for the year ending January 31st, 1915.

INSPECTIONS.

I have made 192 inspections and issued 161 permits as follows: 72 new buildings; 104 old buildings; 1 factory; 1 oil plant; 3 stores; 1 pool room; 4 garages; 6 motors. All of the above have been wired to conform to the National Board of Fire Underwriters' rules and requirements.

FIRE ALARM.

There have been 37 alarms from the following boxes: three from box 13; two from box 25; two from box 26; two from box 32; one from box 35; three from box 36; one from box 37; (two from box 38; those were false alarms); one from box 42; two from box 45; one from box 47; one from box 54; one from box 63; one from box 64; one from box 67; one from box 72; three from box 74; two from box 75; three from box 77; two from box 78; two from box 79.

There have been some much needed improvements in the Fire Alarm system this past year: the apparatus that was located in the Knightville schoolhouse has been housed in a new building on O'Neil Street, and there have been installed a modern storage battery system and a three loop Gamewell switchboard, also a protecting device for the motor and the other apparatus with a circuit breaker and signal bells.

The system in the new building has been working very satisfactorily; but there is a great need of the extension of the system as the firemen in the western part of the city do not get the alarm when the wind is blowing from that direction. And it is a matter of fact that we have so much mileage to cover in the city that it is impossible for the one whistle to give the alarm to the firemen that have not got tappers in their homes, under all weather conditions.

I would recommend that the system be extended to the wards in the city not at present equipped and that a bell striker be placed on the First M. E. church tower on Brown's Hill, and also giving each member of the Fire Department a tapper, thereby giving more satisfactory results.

Thanking you gentlemen for your co-operation with me in the past year, Respectfully submitted,

CHAS. H. BRIMECOMBE,
City Electrician.

REPORT OF BUILDING INSPECTOR.

To the Honorable Mayor and Board of Aldermen—

I herewith submit my report as Building Inspector for the year ending Jan. 31, 1916.

There has been a marked increase in the building line this year, the City Council having granted ninety-one permits, fifty-four of this number being for dwellings, the balance for garages, barns, stables, etc.

I have examined all buildings immediately upon notification and all buildings inspected have been found to comply fully with the building laws.

The same condition exists as in former years; a very noticeable negligence on the part of some builders and owners in calling on the inspector to examine their buildings. Many will notify the inspector before the building is ready, others will call on him when the construction has progressed too far, while some have erected buildings and have not called for them to be inspected. Such a condition shows a marked disregard for law and makes much unnecessary work for the inspector.

The city lacks a thorough, up-to-date building ordinance which also greatly hampers the inspector in his work.

In view of the fact that all conditions point to greater building activities in South Portland in the near future, I would recommend that the City Council enact a set of building ordinances, giving the inspector more power in regard to the erection of buildings and which will give the city a safer and more substantial class of buildings.

I would suggest that this ordinance be particularly strict as regards safeguards for the catching and spreading of fire between buildings, as well as within the buildings themselves, also that it cover the sanitary conditions in tenement houses; that the city will not in the future have to deal with a congested, unhealthful and unsafe tenement district.

Respectfully submitted,

JAMES E. PAIGE,
Inspector of Buildings.

REPORT OF PLUMBING INSPECTOR.

To the Honorable Board of Health —

Gentlemen: — I hereby submit my report of the work performed by me as Plumbing Inspector of the City of South Portland, Maine, for the year ending January 31st, 1916.

I have inspected and looked after the work for which 142 permits were issued. Following is a detailed list of plumbing done within the above mentioned dates:

Permits granted,	142
Closets installed,	153
Lavatories installed,	101
Bath tubs installed,	95
Sinks installed,	137
Laundry trays installed,	46
Foot baths installed,	1
Conductors installed,	54
Urinals installed,	3
Carriage washers installed,	3
Drinking fountains installed,	4
Old fixtures retrapped,	75
Cement drains removed,	6
Vaults done away with,	15
New buildings,	58

There have been thirteen outside vaults done away with in the above mentioned time. This is a joy and a benefit to the neighborhood in which they were located. In going about from place to place, my notice has been called to these annoying out-houses, but the parties making complaint did not wish to sign complaint. I would say no one with a reasonable complaint to make need have any hesitation in making it over his or her own signature, as the Board never makes known the names of complainants.

I would say that all buildings that are accessible to a sewer should enter it and where there is no sewer, then build a cesspool the lawful distance from the building and installing a system of plumbing of which the plumbing laws recommend.

Digitized by Google

I would advise the owners or agents of property in our city, before having the plumber do any work, to see that he is a licensed plumber and has a permit for each and every job that is to be done. In doing this it will insure good lawful work for the owner and make it easier for the Board, and shut out those not qualified in the craft of plumbing.

During the last year, a majoriy of the people having work done looked for its approval by the inspector. In all but two or three cases the work has been done in a satisfactory manner, both in sanitary appliances and workmanship.

Respectfully yours,

J. H. DUFFEY,
Plumbing Inspector.

FUMIGATION.

Dwelling houses fumigated, 23; schoolhouses fumigated, 2, East High and Knightville.

MEDICAL INSPECTION.

In March all of the children in the Knightville School had their throats examined; although there was no contagion present in any one of them, about all had more or less trouble with the throat, and this Board does earnestly recommend that the schools of our city have medical inspection at least twice a year. We hope that you will give this careful consideration.

REPORT OF CITY SOLICITOR.

To the Honorable Mayor and Board of Aldermen —

I herewith submit my report for the year ending February 1st, 1916.

Co-operating with the Treasurer, I have tried to realize money on the property held by the city by virtue of tax sales, and although the task has not been without its difficulties, considerable money has been forthcoming.

A petition was brought by Wilbur F. & Sarah E. Dresser, asking the Assessors to abate a portion of their real estate tax. The petition was denied, and an appeal taken to the County Commissioners, who allowed an abatement. From this decision an appeal has been taken to the Supreme Court where the action is now pending.

Suit has been brought against the city by James H. Harford & Son to recover the sum of $169.81 claimed to be due for printing done in 1910 - 1911. Although this action is pending in the Supreme Judicial Court for the County of York, a settlement is expected soon.

Respectfully submitted,

E. H. WILSON,
City Solicitor.

REPORT OF
BOARD OF REGISTRATION OF VOTERS.

Hon. Mayor and Board of Aldermen —

Gentlemen: — Said Board of Registration herewith submits a report for the fiscal year ended January 31st, 1916.

Said date one year ago discovered our voting lists bearing a total of 1,830 names. In the registration session incident to the municipal election, we qualified 82 new voters, making a total of 1,912 for the year.

In our annual session for revision, held in July, and in other sessions, we struck from the lists for reason of death, or removal from our city, 153 names. We also discovered and confirmed 56 ward changes, and, in view of having to go to the printer for new lists, we as far forth as possible, corrected all changes in street numbers, some 280 such changes coming to our notice for correction. New printed lists pasted in each ward thirty days next prior to our municipal election, Monday, March 6, 1916, make the following exhibit: Ward 1, 254; Ward 2, 267; Ward 3, 241; Ward 4, 267; Ward 5, 194; Ward 6, 266; Ward 7, 268. Total, 1,757. Besides the municipal election before cited, there will be three other elections this year: State and county primaries, Monday, June 19th; State election, Monday, Sept. 11th; Presidential, Tuesday, November 7th.

In each and all of these events, this board will be in session the prescribed legal period for the qualification of new voters and other revision of the voting lists.

JAMES K. TURNER,
MARCUS A. HANNA,
C. A. TILTON,
Board of Registration of Voters.

REPORT OF EXAMINER OF BLIND.

To the Honorable Mayor and Board of Aldermen —

The report of examination of the blind is here given:

I have examined the following persons:

Edward P. Woodsum,	19 Marriner Street.
Wm. S. Curran,	R. 458 Preble Street.
Bertha M. Day,	43 Central Avenue.
James F. Foster,	178 Stanford Street.

One can't begin to realize the hardships some of these people and their families have to contend with.

The city should exert every influence toward the care and comfort of those so afflicted, especially where State aid is not given.

Yours truly,

L. S. LOMBARD,
Physician to Blind.
